

VISITORS

Please Adhere To Farm Biosecurity Protocol For:

-
- **Change into shoes or boots and clothes different from the ones you use on other farms.**
 - **If you don't have a change of shoes or boots, use a footbath with disinfectant, or wear plastic shoe covers. Plastic bags from newspapers work well.**
 - **Park away from the horses. Doing this will help keep disease-carrying organisms from being tracked back and forth on car floors or tires to our horses.**
 - **Always wash your hands or use waterless hand sanitizer and blow your nose after working with the new horse. You could carry germs to our horses in your nose.**
 - **Don't share grooming equipment, pitchforks, and water or feed buckets with any new horse.**
 - **Don't let strangers or unauthorized visitors touch the horses, especially those with horses at home or those who have been out of the country in the past 2 weeks.**
